The 13th Asia Tourism Forum is a major biennial conference which has been held over the past 20 years to address important issues facing Asia's tourism industry, particularly as it relates to development, service management, marketing and sustainability of tourism in Asia and in the world. As Asia deals with sustained economic growth, this edition wish to envisage the new Asian tourism and its interrelations with global tourism. First because in the top international tourist destinations in the world, the Asian "waves" of tourists involve numerous adaptations of the tourist sector. Then, Asian Tourism is now globalized and spreads far away from the borders of Asia. In France for example, it already changed the face of tourism. There is so an accelerating globalization of tourism, beyond its historic homes that are Europe and North America. The former borders of tourism are pushed away, as well as new ones appear and move on. Thus, we have to analyze this globalized and complex phenomenon, focusing on interactions between motivations, tourist offer, stakeholders' strategies and policies.

The conference will be held at **the University of Angers, Saint Serge Campus, City Centre**. Rooms will be arranged in hotels within the city.
